INDEX TO VOLUME CLXVI.

AUTHORS.

Austin, A. E. The masquerades of chronic cholelithiasis, 475; the cold-water cure for nervous dyspepsia, 730.
Austin, Cecil Kent. Medical impressions of America, 799.

Badger, George S. C. Malnutrition, 622.
Barkan, Hans, and Lucas, William Palmer. Acute suppurative pericarditis in infancy, 444.
Barney, J. Dellinger. Tubercular epididymitis; end results of seventy-one cases, 409.
Bassler, Anthony. Post-typhoid dyspepsia, 850.
Benedict, Francis G. The Carnegie Nutrition Laboratory, 878.
Berry, Gordon. Sarcoma of the tonsil, 376.
Blaisdell, J. Harper. Cases from the Skin Department of the Massachusetts General Hospital, service of John T. Bowen, M.D., 168.
Blake, Clarence J. Memorial to Oliver Fairfield Wadsworth, M.D., 529.
Blake, John Bapst. Memorial to Dr. Thomas Dwight, 8.
Blodgett, Albert N. Gui Patin. His life and character as contained in his letters, 723.
Boothby, Walter M. Nitrous oxide-oxygen anesthesia, with a description of a new apparatus, 86; a self-retaining air-tight face-piece for nitrous oxide-oxygen anesthesia, 328.
Boothby, Walter M., and Cotton, Frederick J. A warning in regard to intratracheal insufflation anesthesia; the necessity of a safety valve, 486.
Brackett, E. G. A study of the different approaches to the hip-joint with special reference to the operations for curved trochanteric osteotomy and for arthrodesis, 235.
Bradford, E. H. Report on progress in orthopedic surgery, 12.
Brown, Lloyd T. The inefficiency of the ordinary bed rest. Its correction with a thigh support, 213.
Bullard, William N. A case of mild anterior poliomyelitis, 47.
Burgess, Alex. M., and Cotton, F. J. Liver cyst, a rare case (with a moral), 245.
Burnett, Francis Lowell. John Hunter, 359.
Burns, Newell B. The respective significance of rest and exercise in the treatment of phthisis, 703.
Burns, Newell B., and MacCorlson, Carl C. A method of recording exercise data in a sanatorium for consumptives, 705.
Burrage, Walter L., and Rushmore, Stephen. Progress in gynecology, 487.

Cabot, Arthur T. Work treatment for consumptives, 821.
Cabot, Richard C. Diseases of the mouth, throat and chest, 621.
Chadwick, Henry D. Open-air rooms, 810.
Chase, Henry Melville, and Tenney, Benjamin. Urinary infection, 289.
Cheever, David. Memorial to Dr. Thomas Dwight, 10.
Christian, Henry A. Aneurysm of the thoracic aorta treated by wiring: a case report, 122.
Codman, E. A. Diagnosis of disease of the stomach and intestines by the x-ray, 155; abduction of the shoulder. An interesting observation in connection with subacromial bursitis and rupture of the tendon of the supraspinatus, 890.
Coggin, David. Delayed total absorption of a traumatic cataract after settlement with an accident insurance company, 454.
Cotton, F. J. Rupture of the bowel from compressed air; operation; recovery, 562.
Cotton, F. J., and Burgess, Alex. M. Liver cyst, a rare case (with a moral), 245.
Cotton, Frederic J., and Boothby, Walter M. A warning in regard to intratracheal insufflation anesthesia; the necessity of a safety valve, 486.
Coues, W. P. I. Successful passage of an unusual foreign body through the intestinal tract of a child. II. The importance of the x-ray in the diagnosis of obscure fractures in children, 132; the bone lesions accompanying chronic leg ulcers, 414; fracture of the greater tuberosity of the humerus by muscular action in a child, 821.
Councilman, W. T. Experiences of a medical teacher, 951.
Courtney, J. W. A case of thrombosis of the left posterior inferior cerebellar artery, 329.
Crossfield, Frederic S. Case I: Status lymphaticus. Case II: Syphilitic infection involving the floor of the fourth ventricle, 94.
Cumston, Charles Greene. Remarks on a series of one hundred cases of vaginal hysterectomy for uterine fibromata, 661; a short account of the early history of suprapubic cystotomy, 516.
Cunningham, John H., Jr. A report of two cases reinfected with syphilis following treatment by salvarsan, 929.
Curtis, Francis George. The relation between state and local health authorities, 818.

Davis, John Staige. The hastening of wound healing by means of skin grafting and the use of certain organic coloring matters, 843, 891.
Davis, Lincoln. Acute intestinal emergencies; strangulated hernia; intestinal obstruction; thrombosis and rupture. Report of thirteen cases, 128.
Davis, Michael M. Efficiency tests of out-patient work, 915.
Davis, William H. Prevention of infant mortality by breast feeding, 242.
Delano, Samuel. Infant feeding *au naturel*, 46.
De Normandie, Robert L. Report on obstetrics, 332.
Downing, Bertha C. Mental hygiene and the special child. A chapter in social pathology, 592.

Edsall, D. L. The clinician, the hospital and the medical school, 315;
Emmons, A. B., 2d. Care of pregnant women: pre-natal care, 292; the prevention of eclampsia, 293.

Fairbanks, Arthur Willard. Nervous and mental disorders in the schools, 625.
Fernald, Walter E. The annual discourse: the burden of feeblemindedness, 911.
Fitz, R. H. Continuous versus interrupted hospital service, 399.
Forbes, A. Mackenzie. Anterior metatarsalgia and Morton's disease, 889.
Foster, E. E. An unusual tumor of the fauces, 97.
Freedman, Louis M. Two new instruments for nose and throat, 928.

Garceau, Edgar. Diagnosis of solitary kidney, blocked ureter and kidney inactive by reason of previous disease, 591.
Getchell, Albert C. Hemorrhage from the throat, 93.
Goldthwait, Joel E. Orthopedic defects and rickets, 624.
Goodall, Harry W. A method for detecting bile in stomach contents, 487.
Green, Robert M. Three unusual cases: I. Cyst of the liver. II. Volvulus and strangulated internal concealed hernia complicating pregnancy. III. Acute torsion of hydrosalpinx complicating pregnancy, 246; blood pressure in the toxemias of pregnancy. (Second communication), 164; Dickens's doctors, 926.
Grover, Arthur L. The value of " Russo's typhoid fever test," 706.

Hall, David G. Cerebrospinal meningitis caused by acid in the blood, 660.
Hamilton, Annie Lee, and Morse, Mary E. A study of erythrocythemia and report of a case, 963.
Hammond, Philip. A new mastoid retractor, 967.
Hanson, Justus G. A case of Cæsarean section for placenta previa, 11.
Hanson, Wm. C. Maintenance of isolation hospitals, 812.
Hanson, Wm. C., and Linenthal, H. Progress in hygiene and state medicine, 171.
Hart, Henry B. A case of myiasis, 170.
Hawes, John B., 2d. The treatment of tuberculous adenitis with report of fifty-six cases from the tuberculin department of the Massachusetts General Hospital and from private practice, 80; the responsibility of the medical profession for the early diagnosis and prompt treatment of pulmonary tuberculosis, 195; hemoptysis. Its significance and treatment at out-patient departments, dispensaries and in private practice. A study of one hundred and fourteen cases from the out-patient department of the Massachusetts General Hospital, Boston, 735; Is the early diagnosis of pulmonary tuberculosis being carried too far, 921.
Hewes, Henry F. The gas bacillus as an agent of intestinal fermentation and diarrhea, 75.
Hill, T. Chittenden. The palliative and operative treatment of anal fissure, 560.
Homans, John, and Walton, George L. The operability of cerebral endothelioma, with a report of a successful case, 959.
Howard, Arthur E. The importance of milk stations in reducing city infant mortality, 773.
Howard, H. B. The Peter Bent Brigham Hospital, 876.
Hunt, Robert B. Methods of favoring proteid digestion, 367.

Jacobi, Abraham. Significance of the general practitioner, 439.

Kaan, Geo. W. The relation of gonorrhea to pelvic disease, 556.
Karsner, Howard T. The function of the experimental method in the course of pathology, 879.
Keen, W. W. The influence of antivivisection on character, 651, 687.
Kendall, Arthur I., and Hewes, Henry F. The gas bacillus as an agent of intestinal fermentation and diarrhea, 75.
King, George. Observations on the intensity of acidity of the urine in children, 701.
Kraus, William H. Observations on European and American orthopedic apparatus, 374.

Lambert, Alexander. Care and control of the alcoholic, 615.
Lee, Joseph. Fourth Massachusetts Conference on Tuberculosis. Introductory remarks on open-air rooms, 808.
Linenthal, H. The prevention of occupational diseases, 779.
Linenthal H., and Hanson, Wm. C. Progress in hygiene and state medicine, 171.
Lothrop, Oliver A. Suturing as a substitute for splints after the submucous resection of the nasal septum, 483.
Lovett, Robert W. The new Children's Hospital, 880.
Lowman, C. L. Relation of thigh and leg muscles to malpostures of the feet, 90.
Lucas, William Palmer, and Barkan, Hans. Acute suppurative pericarditis in infancy, 444.
Lucas, W. P., and Southard, E. E. Contributions to the neurology of the child. I. Convulsive tendencies during and after encephalitis in children, 323.

MacCorison, Carl C., and Burns, Newell B. A method of recording exercise data in a sanatorium for consumptives, 705.
Mackenzie, Roland C. On the prevention of ophthalmia neonatorum, 737.
MacKnight, Adam S. What happens to patients released from state sanatoria? 815.
Marshall, H. W. Causes for failures in treatments of chronic joint diseases, and some suggestions how greater successes can be attained, 853; a few notes upon operative measures for tubercular knee affections, 35.
McCarthy, Francis P. The influence of race in the prevalence of tuberculosis, 207.

McConnell, Guthrie. Primary tumors of the spleen. Report of a case, 288.
McLaughlin, A. J. The eradication of typhoid fever, 764.
Morse, George W. A case of chylous ascites. Venous peritoneal anastomosis, 294.
Morse, John Lovett, and Talbot, Fritz B. Report on pediatrics, 967.
Morse, Mary Elizabeth. The blood platelets in normal women, in obstetrical patients and in the newborn, 448.
Morse, Mary Elizabeth, and Hamilton, Annie Lee. A study of erythrocythemia and report of a case with autopsy, 963.
Musser, John H., Jr. Hypodermic injections of iron and arsenic in secondary anemia, 775.
Myerson, A. Two cases of precocious cerebrospinal syphilis, one occurring after salvarsan, the other with post-mortem findings, 595.

Nutting, Adelaide. Nursing and public health, 401.

Ober, Ralph B. Open-air rooms in Springfield, 809.
Ordway, Thomas. A "library-museum" in medicine, 923.
Ordway, Thomas, and Tyzzer, E. E. The Huntington Hospital and the scope of its work, 887.
Orton, Samuel T. Further observations on the fly problem at the Worcester State Hospital, Massachusetts, 1911, 211.
Otis, Edward O. Conference on "Diseases among School Children and the Remedy." Introductory remarks, 621.

Packard, Horace. Demineralized food and cancer, 452.
Palfrey, Francis W. Progress in internal medicine: Diseases of the heart, 630, 667, 707.
Paul, W. E. Freud's psychology as applied to children, 526.
Pease, M. C., and Pisek, Godfrey R. Anaphylaxis in its relation to pediatric practice, 127.
Peckham, Frank E. Treatment of fracture of the clavicle, 777.
Porter, C. A. Two cases of hypertrophic stenosis in infants, 378.
Powers, George H., Jr. Acute mastoiditis complicated by tic douloureux, 380.
Pratt, Joseph H. The class method in the home treatment of tuberculosis and what it has accomplished, 280; the method of science in clinical training, 835.
Procter, P. C. Two cases of new growth involving the eustachian tube, 96.
Putnam, James J. On Freud's psycho-analytic method and its evolution, 115; the significance to neurology of the Robert Dawson Evans Memorial, 584; memorial to Oliver Fairfield Wadsworth, 530.

Rackemann, Francis M., and Taylor, E. W. Nerve root irritation in lumbar puncture. Report of a case, 381.
Reynolds, Edward. The end results of surgery in neurasthenics and on neurasthenia. (With a report of forty-nine cases), 275.
Richardson, Frank C. Aims and purposes of the Robert Dawson Evans Memorial, 583.
Richardson, Mark W. The control of typhoid fever, 771.
Ring, Barbara T. Psychopathic nursing, 484.
Risley, Edward H., and Talbot, Fritz C. The technic of transfusion, 956.
Rosenau, M. J. The department of preventive medicine and hygiene and the new degree of doctor of public health, 886.
Rowen, Henry S. Some observations on the symptomatology of chronic duodenal ulcer, 587.
Rushmore, Stephen. Chorionepithelioma, 552: the disappearance of ovarian tumor after vesicular mole, 416.
Rushmore, Stephen, and Burrage, Walter L. Progress in gynecology, 487.

Scudder, Charles L. Chronic ulcer or chronic indigestion. Its successful treatment by surgical measures. A report of twenty-five cases, 547.
Sever, James Warren. Gonorrheal arthritis, 727.
Seymour, Malcolm. Chronic interstitial nephritis. Acute indigestion as an important symptom, 847.
Simmons, Channing C. Two cases of intracranial cerebral hemorrhage in the newborn relieved by operation, 43.
Smith, C. Morton. Diseases of the skin, 623.
Smith, Richard M. Amaurotic family idiocy, 370.
Sobotky, Irving. Infiltration anesthesia in the submucous resection of the nasal septum, 167.
Southard, E. E. Note on the geographical distribution of insanity in Massachusetts, 1901–1910, 479; the significance of a homeopathic foundation for clinical research and preventive medicine, 585; the new psychopathic department of the Boston Sate Hospital, 882.
Southard, E. E., and Lucas, W. P. Contributions to the neurology of the child. I. Convulsive tendencies during and after encephalitis in children, 323.
Standish, Myles. Memorial to Oliver Fairfield Wadsworth, 532.
Stoll, Henry Farnum. Dr. Samuel Sheldon Fitch, a New England consumption specialist of seventy-five years ago, 658.
Sundelius, Gustaf. Medical gymnastic treatment in certain circulatory disturbances, 664.

Talbot, Fritz C., and Risley, Edward H. The technic of transfusion, 956.
Taylor, E. W., and Rackemann, Francis M. Nerve-root irritation in lumbar puncture. Report of a case, 381.
Tenney, Benjamin, and Chase, Henry Melville. Urinary infection, 289.
Tyrode, Maurice Véjux. Relation of chronic appendicitis to colitis, 1; the technic of gastro-intestinal therapy, 694.
Tyzzer, E. E., and Ordway, Thomas. The Huntington Hospital and the scope of its work, 887.

Van Allen, H. W. Röntgenology of the enteron, 5.
Vincent, Beth. Blood transfusion for hemorrhagic disease of the newborn: the use of the external jugular vein in infants, 627.

Walton, G. L. A case of a butler who killed his three children, 332.
Walton, G. L., and Homans, John. The operability of cerebral endothelioma, with the report of a successful case, 959.
Warren, J. Collins. Memorial to Dr. Thomas Dwight, 7.
Whitney, William F. A delicate method for obtaining hemin crystals from minute blood stains, 562.
Williams, John T., and Young, Ernest Boyen. The value of intra-uterine douches, packing and antiseptics in the treatment of miscarriage. A study of the results in two thousand cases, 364; the outdoor treatment of puerperal infection, 405.
Williams, Louis L. Salvarsan and measles: a clinical note, 738.
Williams, Tom A. Two cases of poliomyelitis mistaken for neuritis, 48.
Withington, Charles F. Visceral purpura and angioneurotic edema, 511.
Worcester, Alfred. Past and present methods in the practice of medicine, 159.

Young, Ernest Boyen. The outdoor treatment of puerperal infection, 405; the value of intra-uterine douches, packing and antiseptics in the treatment of miscarriage. A study of the results in two thousand cases, 364.
Young, James Herbert. A card for the rapid calculation of milk modifications, 372.

SUBJECTS.

Acid in the Blood, cerebrospinal meningitis caused by, David G. Hall, M.D., 660.
Acidity, observations on the intensity in the urine of children, George King, M.D., 701.
Addresses. On Freud's psycho-analytic method and its evolution, James J. Putnam, M.D., 115; the clinician, the hospital and the medical school, D. L. Edsall, M.D., 315; continuous versus interrupted hospital service, R. H. Fitz, M.D. 399; nursing and public health, Adelaide Nutting, 401; aims and purposes of the Robert Dawson Evans Memorial, Frank C. Richardson, M.D., 583; the significance to neurology of the Robert Dawson Evans Memorial, James J. Putnam, 584; the significance of a homeopathic foundation for clinical research and preventive medicine, E. E. Southard, M.D., 585; the method of science in clinical training, Joseph H. Pratt, M.D., 835; care and control of the alcoholic, Alexander Lambert, M.D., 615; Gui Patin. His life and character as contained in his letters, Albert N. Blodgett, M.D., 723; the influence of antivivisection on character, W. W. Keen, M.D., 651, 687; significance of the general practitioner, Abraham Jacobi, M.D., 439; the burden of feeble-mindedness, Walter E. Fernald, M.D., 911; before the Harvard Medical Alumni Association, J. Collins Warren, M.D., 875.
Alcoholic, the care and control of, Alexander Lambert, M.D., 615.
Amaurotic Family Idiocy. Richard M. Smith, M.D., 370.
Anal Fissure, the palliative and operative treatment of, T. Chittenden Hill, M.D., 560.
Anaphylaxis in its relation to pediatric practice, Godfrey R. Pisek, M.D., and M. C. Pease, M.D., 127.
Anemia, Secondary, hypodermic injections of iron and arsenic in, John H. Musser, Jr., M.D. 775.
Anesthesia, nitrous oxide-oxygen, with a description of a new apparatus, Walter M. Boothby, A.M., M.D., 86; a self-retaining air-tight face-piece for, Walter M. Boothby, A.M., M.D., 328; infiltration anesthesia in the submucous resection of the nasal septum, Irving Sobotky, M.D., 167; a warning in regard to intra-tracheal insufflation anesthesia, Frederick J. Cotton, A.M., M.D., and Walter M. Boothby, A.M., M.D., 486.
Aneurysm of the thoracic aorta, treated by wiring: A case report, Henry A. Christian, M.D., 122.
Antivivisection, influence of, on character, W. W. Keen, M.D., 651, 687.
Appendicitis, relation of chronic, to colitis, Maurice Véjux Tyrode, M.D., 1.
Arthritis, Gonorrheal. James Warren Sever, M.D., 727.
Ascites, Chylous, a case of. Venous peritoneal anastomosis. Recovery. George W. Morse, M.D., 294.

Bed Rest, the inefficiency of the ordinary. Its correction with a thigh support, Lloyd T. Brown, M.D., 213.
Bile, a method for detecting, in stomach contents, Harry W. Goodall, M.D., 487.
Blood Platelets in normal women, in obstetrical patients and in the newborn, Mary Elizabeth Morse, M.D., 448.
Blood Pressure in the toxemias of pregnancy. (Second communication.) Robert M. Green, M.D., 164.
Blood Stains, minute, a delicate method for obtaining hemin crystals from, William F. Whitney, 562.
Blood Transfusion for hemorrhagic disease of the newborn: The use in the external jugular veins in infants, Beth Vincent, M.D., 627.
Bone Lesions accompanying chronic leg ulcers, Wm. Pearce Coues, M.D., 414.
Book Reviews. George Knapp Abbott, elements of hydrotherapy for nurses, 636; Albert Abrams, spondylotherapy. Physiotherapy of the spine based on a study of clinical physiology, 636; Wilfred E. Aiderson, aids to dental anesthetics, 423; James M. Anders, a textbook of the practice of medicine, 179; annual report of the surgeon-general of the Public Health and Marine-Hospital Service of the United States. For the fiscal year 1911, 566; N. E. Aronstam, Jewish dietary laws from a scientific standpoint, 423; William Atkinson, the orientation of buildings or planning for sunlight, 565; F. R. Bailey and A. M. Miller, textbook of embryology, 217; Andrew Balfour, fourth report of the Wellcome Tropical Research Laboratories at the Gordon Memorial College, Khartoum. Volume A: Medical. Volume B: General Science, 601; A. H. F. Barbour, maternity primer, 535; Charlton Bastian, the origin of life, 424; William Henry Battle and Edred M. Corner, the surgery of the diseases of the appendix vermiformis and their complications, 217; William Henry Battle, clinical lectures on the acute abdomen, 257; Leonard A. Bidwell, minor surgery, 140; Robert Bing, compendium of regional diagnosis in affections of the brain and spinal cord, 140; Le d'Leon Bizard and Louis Lesage, la preparation, "606" (état actuel de la question), 179; Edward H. Bradford and Robert W. Lovett, orthopedic surgery, 602; George Van Ingen Brown, the surgery of oral diseases and malformations, 636; H. Addington Bruce, scientific mental healing, 179; Joseph D. Bryant and Albert H. Buck, American practice of surgery, 216; Robert E. Buchanan, veterinary bacteriology, 218; Frederick C. Busch, a laboratory manual of physiology, 256; Joseph Byrne, on the physiology of the semicircular canals and their relation to seasickness 566; Richard C. Cabot, differential diagnosis, 602; F. Calot, l'orthopédie indispensable aux practiciens, 257; Walter B. Cannon, the mechanical factors of digestion, 564; Charles B. Chapin, the sources of infection, 257; Henry Dwight Chapin and Godfrey Roger Pisek, diseases of infants and children, 218; Sir Watson Cheyne, tuberculous diseases of bones and joints, 602; Walter S. Cornell, health and medical inspection of school children, 602; Charles F. Craig, the parasitic amebæ of man, 636; Peter Daniel and James Cantlie, arthritis. A study of the inflammatory diseases of joints, 671; Walter T. Dannreuther, minor and emergency surgery, 300; Francis Delafield and T. Mitchell Prudden, a textbook of pathology, 783; G. Dieulafoy, a textbook of medicine, 299; Norman E. Ditman, home hygiene and prevention of disease, 672; L. Doncaster, heredity in the light of recent research, 672; W. A. Newman Dorland, the American Illustrated Medical Dictionary, 299; Loudon M. Douglas, the bacillus of long life, 672; Richard Edelmann, textbook of meat hygiene, with special consideration of ante-mortem and post-mortem inspection of food-producing animals, 424; Charles Wallis Edmunds and Worth Hale, the physiological standardization of ergot, 300; Paul Ehrlich and S. Hata, the experimental chemotherapy of spirilloses, 300; Max Einhorn, diseases of the stomach. A textbook for practitioners and students, 672; Hieronymus Fracastor's syphilis. From the original Latin. A translation in prose of Fracastor's immortal poem, 564; Gerald Garry, some factors influencing health in tropical and subtropical countries, 424; Henry Gray, anatomy, descriptive and applied, 20; Olaf Hammarsten, a textbook of physiological chemistry, 340; the Harvey lectures, 21; Arthur E. Hertzler, a treatise on tumors, 743; William Hill, gastroscopy, 743; Guy Hinsdale, hydrotherapy, 339; James W. Holland, a textbook of medical chemistry and toxicology, 340; Bayard Holmes, friends of the insane, the soul of medical education and other essays, 783; L. Emmett Holt, the diseases of infancy and childhood, 340; Russell Howard, the house-surgeon's vade-mecum, 300; William H. Howell, a textbook of physiology, 340; Woods Hutchinson, exercise and health, 743; Woods Hutchinson, we and our children, 743; Robert H. Ivy, applied anatomy and oral surgery, 424; Edward Jackson, Theodore Schneideman and William Zentmayer, the Ophthalmic Year Book, Vol. VIII, 462; the Johns Hopkins Hospital reports, Vols. XV and XVI, 21; John W. Judd, the coming of evolution, 423; Allen B. Kanavel, infections of the hand, 743; F. J. Lambkin, syphilis; its diagnosis and treatment, 258; Stéphane Leduc, the mechanism of life, 258; Frederic S. Lee, scientific features of modern medicine, 565; Thomas Lewis, the mechanism of the heart beat, 340; Edwin A. Locke, food values, practical tables for use in private practice and public institutions, 423; E. S. London, radium in biology and medicine, 21; William Macewen, the growth of bone, 710; W. Harrison Martindale and W. Wynn Westcott, "salvarsan," or "606," 258; Charles May, manual of diseases of the eye, 258; Allan J. McLaughlin, sewage pollution of interstate and international waters. I. Lake Erie and the Niagara River, 300; J. Ewing Mears, the triumph of American medicine in the construction of the Panama Canal, 258; Albert S. Morrow, the immediate care of the injured, 822; Albert S. Morrow, diagnostic and therapeutic technic, 59; J. D. Mortimer, anesthesia and analgesia, 258; B. G. A. Moynihan, duodenal ulcer, 821; John H. Musser and A. O. J. Kelly, a handbook of practical treatment, 564; Charles S. Myers, an introduction to experimental psychology, 822; George M. Niles, pellagra: an American problem, 822; Eugène Oliver, topographic and surgical anatomy of the thymus, 565; George P. Paul, a textbook of materia medica for nurses, including therapeutics and toxicology, 495; Edward Bunnell Phelps, the mortality of alcohol, 462; Wendell Christopher Phillips, diseases of the ear, nose and throat, medical and surgical, 534; Paul M. Pilcher, practical cystoscopy and the diagnosis of surgical diseases of the kidneys and urinary bladder, 101; Charles S. Potts, electricity, 497; Georg Preiser, static diseases of the joints, 462; Henry Ottridge Reik, diseases of the ear, nose and throat, 496; C. W. Saleeby, surgery and society. A tribute to Listerism, 822; sanitary statistics of the Italian army for the years 1907 and 1908, 566; J. S. Kellet Smith, lateral curvature of the spine and flat foot and their treatment by exercises, 20; studies from the Rockefeller Institute for Medical Research, Vol. XIII, 565; transactions of the American Surgical Association, Vol. XXIX, 566; United States Naval Medical Bulletin for the information of the Medical Department of the service, Vol. V, No. 4, 423; Norman Walker, an introduction to dermatology, 59; Herbert Ewan Waller, theory and practice of thyroid therapy, 58; James J. Walsh, education: how old the new, 859; Aldred Scott Warthin, practical pathology, 21; Chalmers Watson, food and feeding in health and disease, 101; Reynolds Wilson, a reference handbook of obstetric nursing, 385; R. A. Witthaus and Tracy C. Becker, medical jurisprudence, forensic medicine and toxicology, 59; Abr. L. Wolbarst, gonorrhea in the male, 58; Francis Carter Wood, chemical and microscopical diagnosis, 58; John Zahorsky, Medical Guide and Monograph Series: golden rules of pediatrics. Aphorisms, observations and precepts on the science and art of pediatrics, 59; John Roberts, surgery of the deformities of the face, 934; A. Rendle Short, the new physiology in surgical and general practice, 935; Georgiana J. Sanders, modern methods in nursing, 935; James Campbell Todd, clinical diagnosis, 935; A. Wolff-Eisner, clinical immunity and sero-diagnosis, 935; new and non-official remedies, 1912, 971.
Bowel, rupture of, from compressed air. Operation. Recovery. F. J. Cotton, A.M., M.D., 562.
Breast Feeding, prevention of infant mortality by, William H. Davis, M.D., 242.
Butler, a case of, who killed his three children, G. L. Walton, M.D., 332.

Cæsarean Section, a case of, for placenta previa, Justus G. Hanson, M.D., 11.
Cancer, demineralized food and, Horace Packard, M.D., 452.
Cataract, Traumatic, delayed total absorption of a, after settlement with an accident insurance company, David Coggin, M.D., 454.
Cerebrospinal Meningitis caused by acid in the blood, David G. Hall, M.D., 660.
Cholelithiasis, Chronic, the masquerades of, A. E. Austin, M.D., 475.
Chorionepithelioma. Stephen Rushmore, M.D., 552.
Chronic Appendicitis, relation of, to colitis, Maurice Véjux Tyrode, M.D., 1.
Chronic Cholelithiasis, the masquerades of, A. E. Austin, M.D., 475.
Chronic Duodenal Ulcer, some observations on the symptomatology of, Henry S. Rowen, M.D., 587.

Chronic Interstitial Nephritis. Acute indigestion as an important symptom, Malcolm Seymour, M.D., 847.
Chronic Joint Diseases, causes for failures in treatments of, and some suggestions how greater successes can be attained, H. W. Marshall, M.D., 759, 804, 853.
Chronic Leg Ulcers, bone lesions accompanying, Wm. Pearce Coues, M.D., 414.
Chronic Ulcer or Chronic Indigestion. Its successful treatment by surgical measures. A report of twenty-five cases, Charles L. Scudder, M.D., 547.
Circulatory Disturbances, medical gymnastic treatment in, Gustaf Sundelius, 664.
Cold-Water Cure for nervous dyspepsia, A. E. Austin, M.D., 730
Colitis, relation of chronic appendicitis to, Maurice Véjux Tyrode, M.D., 1.
Consumption, see tuberculosis.
Correspondence. Dr. Osler on Gui Patin, Albert M. Blodgett, M.D., 833; a sole which does not slip, E. H. Bradford, M.D., 721; the recomposition of the air. A correction, Fred J. Cotton, M.D., 473; Dryden and smallpox, Wm. Pearce Coues, M.D., 358; an Elizabethan quack, Wm. Pearce Coues, M.D., 649; another instance of a dislocated opaque lens, D. C., 546; heredity of oral defects. Histories desired, C. B. Davenport, W. F. Blades, 546; cultures of streptococcus throat infections desired, Harold C. Ernst, M.D., 546; the introduction of inoculation, R. H. Fitz, M.D., 356; letter from the Philippines. The ideal climate. Tuberculosis and syphilis in Australia. Beriberi. Malaria, "G," 193; letter from the Philippines. The hot season. Infantile beriberi. Leprosy. International Plague Conference, Donald Gregg, 797; Dr. Grenfell's mission. Pilley's Island Hospital, H. P. Greeley, M.D., 194; an omission explained, Howard A. Kelly, M.D., 582; our responsibility for tuberculosis, Richard Cole Newton, 357; the question of appendicitis, Beverley Robinson, M.D., 154; Paris letter. "Primum non nocere," "S." 720; epidemic tonsillitis: an air-borne infection, Edmund D. Spear, M.D., 545; the limitations of the specialist in the diagnosis of tuberculosis,*** 357.
Cystotomy, Suprapubic, a short account of the early history of, Charles Greene Cumston, M.D., 516.
Chylous Ascites, a case of. Venous peritoneal anastomosis. Recovery, George W. Morse, M.D., 294.

Demineralized Food and Cancer. Horace Packard, M.D., 452.
Dermatology, cases from the skin department of the Massachusetts General Hospital. Service of John T. Bowen, M.D., J. Harper Blaisdell, M.D., 168; report on progress in, John T. Bowen, M.D., 929.
Dickens's Doctors, R. M. Green, M.D., 926.
Duodenal Ulcer, chronic, some observations on the symptomatology of, Henry S. Rowen, M.D., 587.
Dwight, Dr. Thomas, memorials to: I. J. Collins Warren, M.D., 7; II. John Bapst Blake, M.D., 8; III. David Cheever, M.D., 10.
Dyspepsia, post-typhoid, Anthony Bassler, M.D., 850; the cold-water cure for nervous dyspepsia, A. E. Austin, M.D., 730.

Eclampsia, the prevention of, A. B. Emmons, M.D., 293.

Encephalitis in children, convulsive tendencies during and after, W. P. Lucas, M.D., and E. E. Southard, M.D., 323.
Endothelioma, the operability of cerebral, George L. Walton, M.D., and John Homans, M.D., 959.
Enteron, röntgenology of the, H. W. Van Allen, M.D., 5.
Epididymitis, Tubercular, end results of seventy-one cases, J. Dellinger Barney, M.D., 409.
Erythrocythemia, a study of, and report of a case, Annie Lee Hamilton, M.D., and Mary Elizabeth Morse, M.D., 963.
Eustachian Tube, two cases of new growth involving the, P. C. Procter, M.D., 96.
Exercise Data, a method of recording, in a sanatorium for consumptives, Carl C. MacCorison, M.D., and Newell B. Burns, M.D., 705.
Exercise and Rest in treatment of phthisis, Newell B. Burns, M.D., 703.

Fauces, an unusual tumor of the, E. E. Foster, M.D., 97.
Feeble-Mindedness, the burden of, Walter E. Fernald, M.D., 911.
Feet, relation of thigh and leg muscles to malpostures of, C. L. Lowman, M.D., 90.
Fitch, Dr. Samuel Sheldon, a New England consumption specialist of seventy-five years ago, Henry Farnum Stoll, M.D., 658.
Fly Problem, further observations on, at the Worcester State Hospital, Massachusetts, 1911, Samuel T. Orton, M.D., 211.
Fracture of the greater tuberosity of the humerus by muscular action in a child, Wm. Pearce Coues, M.D., 821; of the clavicle, treatment of, Frank E. Peckham, M.D., 777.
Freud's psychology as applied to children, W. E. Paul, M.D., 526; psycho-analytic method and its evolution, James J. Putnam, M.D., 115.

Gas Bacillus as an agent of intestinal fermentation and diarrhea, Henry F. Hewes, M.D., and Arthur I. Kendal, 75.
Gastro-Intestinal Therapy, the technic of, Maurice Véjux Tyrode, M.D., 694.
General Practitioner, significance of the, Abraham Jacobi, M.D., 439.
Gonorrhea, relation of to pelvic disease, Geo. W. Kaan, M.D., 556.
Gonorrheal Arthritis. James Warren Sever, M.D., 727.
Gymnastic Treatment, medical, in certain circulatory disturbances, Gustaf Sundelius, 664.
Gynecology, progress in, Walter L. Burrage, M.D., and Stephen Rushmore, M.D., 487.

Hemin Crystals from minute blood stains, a delicate method for obtaining, William F. Whitney, M.D., 562.
Hemoptysis. Its significance and treatment at out-patient departments, dispensaries and in private practice. A study of one hundred and fourteen cases from the Out-Patient Department of the Massachusetts General Hospital, Boston, John B. Hawes, 2d, M.D. 735.
Hemorrhage from the throat, Albert C. Getchell, M.D., 93; intracranial cerebral, two cases of, in the newborn relieved by operation, Channing C. Simmons, M.D., 43.
Hernia, volvulus and strangulated internal concealed, complicating pregnancy, Robert M. Green, M.D., 246.
Hip-Joint, a study of the different approaches to the, with special reference to the operations for curved trochanteric osteotomy and for arthrodesis, E. G. Brackett, M.D., 235.
Hospitals, the Peter Bent Brigham Hospital, H. B. Howard, M.D., 876; the Carnegie Nutrition Laboratory, Francis G. Benedict, Ph.D., D.Sc., 878; the function of the experimental method in the course of pathology, Howard T. Karsner, M.D., 879; the new Children's Hospital, Robert W. Lovett, M.D., 880; the new Psychopathic Department of the Boston State Hospital, E. E. Southard, M.D., 882; the department of preventive medicine and hygiene and the new degree of doctor of public health, M. J. Rosenau, M.D., 886; the Huntington Hospital and the scope of its work, E. E. Tyzzer, M.D., and Thomas Ordway, M.D., 887.
Hospital Service, continuous versus interrupted, R. H. Fitz, M.D., 399.
Hunter, John. Francis Lowell Burnett, M.D., 359.
Hygiene and state medicine, Wm. C. Hanson, M.D., and H. Linenthal, M.D., 171.

Idiocy, amaurotic family, Richard M. Smith, M.D., 370.
Indigestion, chronic, or chronic ulcer. Its successful treatment by surgical measures, Charles L. Scudder, M.D., 547.
Infant Feeding *au naturel,* Samuel Delano, M.D., 66; a card for the rapid calculation of milk modifications, James Herbert Young, M.D., 372.
Infant Mortality, prevention of, by breast feeding, William H. Davis, M.D., 242; the importance of milk stations in reducing city, Arthur E. Howard, M.D., 773.

Insanity in Massachusetts, note on the geographical distribution, 1901–1910, E. E. Southard, M.D., 479.
Internal Medicine, progress in. Diseases of the heart, Francis W. Palfrey, M.D., 630, 667, 707.
Intestinal Emergencies, acute. Strangulated hernia, intestinal obstruction, thrombosis and rupture. Report of thirteen cases, Lincoln Davis, M.D., 128; I. Successful passage of an unusual foreign body through the intestinal tract of a child; II. The importance of the x-ray in the diagnosis of obscure fractures in children, W. P. Coues, M.D., 132.
Intestinal Fermentation and Diarrhea, gas bacillus as an agent of, Henry F. Hewes, M.D., 75.
Intestines and Stomach, diagnosis of diseases of the, by the x-ray, E. A. Codman, M.D., 155.
Intracranial Cerebral Hemorrhage, two cases of, in the newborn relieved by operation, Channing C. Simmons, M.D., 43.
Intratracheal Insufflation Anesthesia, a warning in regard to, the necessity of a safety valve, Frederic J. Cotton, A.M., M.D., and Walter M. Boothby, A.M., M.D., 486.

Joint Disease, Chronic, causes for failures in treatments of, and some suggestions how greater successes can be attained, H. W. Marshall, M.D., 759, 804, 853.

Kidney, solitary, diagnosis of, blocked ureter and kidney inactive by reason of previous disease, Edgar Garceau, M.D., 591.
Knee Affections, tubercular, a few notes upon operative measures for, H. W. Marshall, M.D., 35.

Library-Museum in medicine, Thomas Ordway, M.D., 923.
Liver Cyst, a rare case (with a moral), F. J. Cotton, A.M., M.D., 24; cyst of the liver, Robert M. Green, M.D., 246.
Lumbar Puncture, nerve-root irritation in, report of a case, Francis M. Rackemann, A.B., and E. W. Taylor, M.D., 381.

Mastoiditis, acute, complicated by tic douloureux, George H. Powers, Jr., M.D., 380.
Measles, salvarsan and a clinical note, Louis L. Williams, M.D., 738.
Medical gymnastic treatment in certain circulatory disturbances, Gustaf Sundelius, 664; impressions of America, Cecil Kent Austin, M.D., 799.
Medical Teacher, experiences of, W. T. Councilman, M.D., 951.
Medicine, practice of, past and present methods in the, Alfred Worcester, M.D., 159.
Memorials to Oliver Fairfield Wadsworth, M.D. I. Clarence Blake, M.D., 529; II. James J. Putnam, M.D., 530; III. Myles Standish, M.D., 532; to Dr. Thomas Dwight: I. J. Collins Warren, M.D., 7; II. John Bapst Blake, M.D., 8; III. David Cheever, M.D., 10.
Mental Hygiene and the special child. A chapter in social pathology, Bertha C. Downing, A.M., M.D., 592.
Metatarsalgia, anterior, and Morton's disease, A. Mackenzie Forbes, M.D., 899.
Milk Modifications, a card for the rapid calculation of, James Herbert Young, M.D., 372.
Milk Stations, the importance of, in reducing city infant mortality, Arthur E. Howard, M.D., 773.
Miscarriage, the value of intra-uterine douches, packing and antiseptics in the treatment of. A study of the results in two thousand cases, Ernest Boyen Young, M.D., and John T. Williams, M.D., 364.
Miscellany. Free public medical lectures, 33; advantages and disadvantages of medicine as a profession, 33; control of tuberculosis in Massachusetts, 34; report of the Rhode Island Hospital, 34; British birth and death rates, 73; examinations for army medical corps, 73; civil service examination for school physician, 74; appointment: a correction, 74; enforcement of Pure Food and Drug laws, 113; contagious abortion in cattle, 113; Admiral Evans and the surgeon, 113; provisions of the Esch Bill, 114; midwinter meeting of the Æsculapian Club, 153; further notes on pygopagi, 153; George F. Jelly, M.D., 153; memorial of Maurice Dwight Clarke, M.D., 192; phosphorus necrosis and the Esch Bill, 233; Dr. Holmes and the female of the species, 234; Massachusetts Medical Society. Stated meeting of the council, 270; folklore of the umbilical cord, 272; medical relief and the general practitioner, 273; reports on tuberculosis, 313; the doctors and the National Insurance Bill, 355; an old medical bill, 355; an "emanatorium" for radium inhalation, 356; refrigeration in the reduction of pyrexia, 356; milk pasteurization in New York, 396; three new hospitals, 436; notification of venereal diseases in New York, 437; two prospective medical meetings in Boston, 473; new plans to combat tuberculosis, 508; pneumonia in Michigan, 509; conference on conservation of school children, 510; American School Hygiene Association, 581; Japanese rules of hygiene, 613; the nature of seasickness, 613; medical meetings in April, 614; Isaac Ebenezer Taylor, M.D., a centennial memorial, 649; remarks by Dr. F. C. Shattuck at the dinner to emeritus professors of the Harvard Medical School, 684; complexion susceptibility and immunity to infection, 684; eugenics and self-culture, 685; English medical terms of Greek origin, 685; sources and importation of cinchona and quinine, 755; decline of fertility among pure-blooded Indians, 756; purification of oysters by sea-water, 756; school clinics in England, 757; fungicidal properties of thorium, 757; memorial notice of Dr. George Leroy Rice. Resolutions by the committee of The Massachusetts Medical Society, 757; centennial memorial of Daniel Brainard, M.D., 758; award of Red Cross prizes. The Florence Nightingale medal, 796; an American at the Tuberculosis Congress, 796; number of medical schools and graduates, 796; Harvard Medical Class Day, 833; ancient pharmacy and therapeutics, 873; project for dealing with tuberculosis in Great Britain and Ireland, 985.
Myiasis, a case of, Henry B. Hart, M.D., 170.

Nephritis, chronic interstitial, acute indigestion as an important symptom, Malcolm Seymour, M.D., 847.
Nerve-Root Irritation in lumbar puncture, report of a case, Francis M. Rackemann, A.B., and E.W. Taylor, M.D., 381.
Nervous Dyspepsia, the cold-water cure for, A. E. Austin, M.D., 730.
Neurasthenics and on neurasthenia, the end results of surgery in (with a report of forty-nine cases), Edward Reynolds, M.D., 275.
Neuritis, two cases of, poliomyelitis mistaken for, Tom A. Williams, M.C., C.M. Edin., 48.
Neurology of the child, contributions to the. I. Convulsive tendencies during and after encephalitis in children, W. P. Lucas, M.D., and E. E. Southard, M.D., 323.
New Instrument, a new mastoid retractor, Philip Hammond, M.D., 967; two new instruments for nose and throat, Louis M. Freedman, M.D., 928.
Nitrous Oxide-Oxygen Anesthesia, a self-retaining air-tight facepiece for, Walter M. Boothby, A.M., M.D., 328: with a description of a new apparatus, Walter M. Boothby, A.M., M.D., 86.
Nursing and the public health, Adelaide Nutting, 401; psychopathic, Barbara T. Ring, 484.

Obituaries. Clara Harlowe Barton, 611; James Lyman Belknap, M.D., 32; Edmund Biernacki, M.D., 354; Francis T. Bond, M.D., M.R.C.S., F.R.C.E., 32; Sir Henry Trentham Butlin, Bart., D.C.L., LL.D., F.R.C.S. Eng., 312; Augustus Peck Clarke, M.D., 683; Algernon Coolidge, M.D., 72; John Bacon Coolidge, M.D., D.D.S., 269; memorial of Frank Byron Flanders, M.D., 472; Bernhard Fränkel, M.D., 152; Angus Fraser, M.A., M.D., C.M., LL.D., 649; Julius Theodor Richard Frommel, M.D., 833; Max Jaffe, M.D., 191; John Augustus Lamson, M.D., 153; Joshua Francis Lewis, S.B., M.D., 396; Arthur Vincent Meigs, M.D., 73; John Herr Musser, M.D., 581; Adelchi Negri, M.D., 612; William Ogle, M.A., D.M., F.R.C.P. Lond., 720; Julius Leopold Pagel, M.D., 436; William Shedd Richardson, M.D., 355; Otto Ludwig Adolf Seeligmüller, M.D., 873; John Bernhardt Smith, LL.B., Sc.D., 473; Francis Jewett Stevens, M.D., 436; John Francis Sutherland, M.D., C.M., F.R.S.E., 191; Edward Payson Turner, M.D., 233; William Asa Wheeler, M.D., 192; Franz von Winckel, M.D., 312; James R. Fairbanks, M.D., 950; Edward Field Parsons, M.D., 950.
Obstetrics, progress in, Robert L. DeNormandie, M.D., 332; a case of Cæsarean section for placenta previa, Justus G. Hanson, M.D., 11; the value of intra-uterine douches, packing and antiseptics in the treatment of miscarriage, Ernest Boyen Young, M.D., and John T. Williams, M.D., 364.
Occupational Diseases, the prevention of, H. Linenthal, M.D., 779.
Open-Air Rooms, see tuberculosis.
Ophthalmia Neonatorum, on the prevention of, Roland C. Mackenzie, M.D., 737.
Orthopedics, progress in, E. H. Bradford, M.D., 12.
Orthopedic Apparatus, observations on European and American, William H. Kraus, 374.
Outdoor Treatment of puerperal infection, Ernest Boyen Young, M.D., and John T. Williams, M.D., 405.
Out-Patient Work, efficiency tests, Michael M. Davis, M.D., 915.
Ovarian Tumor, the disappearance of, after vesicular mole, Stephen Rushmore, M.D., 416.

Patin, Gui. His life and character as contained in his letters, Albert N. Blodgett, M.D., 723.
Pediatrics, anaphylaxis in its relation to pediatric practice, Godfrey R. Pisek, M.D., and M. C. Pease, M.D., 127; acute suppurative pericarditis in infancy, Hans Barkan, M.D., and William Palmer Lucas, M.D., 444; convulsive tendencies during and after encephalitis in children, W. P. Lucas, M.D., and E. E. Southard, M.D., 323; two cases of hypertrophic stenosis in infants, C. A. Porter, M.D., 378; two cases of precocious cerebrospinal syphilis, A. Myerson, M.D., 595; report of progress in, John Lovett Morse, M.D., and Fritz B. Talbot, M.D., 967.
Pelvic Disease, the relation of gonorrhea to, Geo. W. Kaan, M.D., 556.
Pericarditis, acute suppurative, in infancy, Hans Barkan, M.D., and William Palmer Lucas, M.D., 444.
Phthisis, the respective significance of rest and exercise in the treatment of, Newell B. Burns, M.D., 703.
Placenta Previa, a case of Cæsarean section for, Justus G. Hanson, M.D., 11.
Poliomyelitis, a case of mild anterior, William N. Bullard, M.D., 47; two cases of, mistaken for neuritis, Tom A. Williams, M.D., C.M., 48.
Pregnancy, care of pregnant women. Prenatal care, 292; the prevention of eclampsia, A. B. Emmons, 2d, M.D., 293; blood pressure in the toxemias of, R. M. Green, M.D., 164; volvulus and strangulated internal concealed hernia complicating, acute torsion of hydrosalpinx complicating, Robert M. Green, M.D., 246.
Progress. Progress in gynecology, Walter L. Burrage and Stephen Rushmore, 487; report on progress in orthopedic surgery, E. H. Bradford, 12; report on obstetrics, Robert L. DeNormandie, 332; progress in internal medicine, Francis W. Palfrey, M.D., 630, 667, 707; progress in hygiene and state medicine, Wm. C. Hanson and H. Linenthal, 171; report on dermatology, John T. Bowen, M.D., 930; report on pediatrics, John Lovett Morse, and Fritz, B. B. Talbot, 967.
Proteid Digestion, method of favoring, Robert B. Hunt, M.D. 367.
Psychopathic Nursing. Barbara T. Ring, M.D., 484.
Public Health and Nursing. Adelaide Nutting, 401.
Puerperal Infection, the outdoor treatment of, Ernest Boyen Young, M.D., and John T. Williams, M.D., 405.

Rest and Exercise, significance of, in treatment of phthisis, Newell B. Burns, M.D., 703.
Robert Dawson Evans Memorial, aims and purposes of, Frank C. Richardson, M.D., 583; the significance to neurology of, James J. Putnam, M.D., 584; the significance of a homeopathic foundation for clinical research and preventive medicine, E. E. Southard, M.D., 585.
Röntgenology of the enteron, H. W. Van Allen, M.D., 5.
"Russo's Typhoid Fever Test," the value of, Arthur L. Grover, M.D., 706.

Salvarsan, two cases of precocious cerebrospinal syphilis; one occurring after, A. Myerson, M.D., 595; and measles: a clinical note, Louis L. Williams, M.D., 738; two cases reinfected with syphilis following treatment by, John H. Cunningham, Jr., 929.
Sarcoma of the tonsil, Gordon Berry, M.D., 376.
School Children, diseases among, conference on, and the remedy: introductory remarks, Edward O. Otis, M.D., 621; diseases of the mouth, throat and chest, Richard C. Cabot, M.D., 621; malnutrition,

George S. C. Badger, M.D., 622; diseases of the skin, C. Morton Smith, M.D., 623; orthopedic defects and rickets, Joel E. Goldthwait, M.D., 624; nervous and mental disorders in the schools, Arthur Willard Fairbanks, M.D., 625.

Science, method of, in clinical training, Joseph H. Pratt, M.D., 835.

Shoulder, abduction of the. An interesting observation in connection with subacromial bursitis and rupture of the tendon of the supraspinatus, E. A. Codman, M.D., 890.

Skin Grafting, the hastening of wound healing by means of, and the use of certain organic coloring matters, John Staige Davis, M.D., 843, 891.

Social Pathology, a chapter on mental hygiene and the special child, Bertha C. Downing, A.M., M.D., 592.

Societies.
